

IAT- Section 2 Automotive Sector Quiz

Introduction to the Core Tools

Instructions:

- The questions are either: short answer, fill in the blank, or true/false

Note: Some exercises are short answer. One point per question, unless otherwise noted

Note: Repeating the standard verbatim is not an acceptable answer for the objective evidence section.

Example:

Objective Evidence

- Three people did not attend training. **Acceptable**
- Records shall be established and maintained. **Not Acceptable**

1. _____ primarily deals with analyzing the effect of the measurement system on the measured value.

2. APQP truly reflects the product design responsibilities of an organization. Since many organizations are not design responsible, APQP typically does not apply to non-product design organizations.

True or False?

—

3. List the application of products that apply with Advanced Product Quality Planning
